REASONS FOR ALLOWANCE

1. Claims 1-26 are allowable over the prior art of record
2. The following is an examiner's statement of reasons for allowance:

As per claims 1-26, prior art of record does not teach or fairly suggest a method of protecting a digital work or a system for protecting a digital work that encrypts the digital work while employing a format preserving encrypting scheme, which preserves formatting information of the digital work, as recited in independent claims 1 and 14. The claimed method or system enables any native replay application or rendering application to transform an encrypted digital work into encrypted presentation data. The encrypted presentation data is then decrypted just before it is displayed to the user. The claimed method or system improves the overall performance of the process by minimizing the decryption overhead and postponing the decryption to a late stage of the rendering process

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
